TOUR 6. Crystal Cascades

Distance: 12 km one way

Time: 1 hour one way

Start: Glenoma Park, Kamerunga rd, Brinsmead

Take the cycle path alongside Freshwater Creek and across the tramline.

Use the bike tunnel to cross under Deviation Rd and follow it left towards Redlynch. Follow the path past the shops to the roundabout and turn left at Redlynch Intake Rd.

Follow the road all the way to Rocks Rd on the left, going behind the public toilets, cut down to again meet Freshwater Creek and follow the short dirt track to the old cane train bridge over the creek. Carefully wheel your bike over and join the sealed cycle path on the other side.

This path will take you all the way into Redlynch Valley. If you continue through to the end of the path you will find a local swimming hole.

Unfortunately you can't cross over the creek to get back onto Redlynch Intake Rd from here. You will need to backtrack and cross the old bridge next to the car bridge and take Mary Parker Drive up to Redlynch Intake Rd.

This road will take you all the way through lush rainforest to the sparkling pools and waterfalls of Crystal Cascades, just in time for a cool dip or a BBQ. Take care, the last section of road is narrow and winding.

Return to Glenoma Park the same way.
